

Hand clamp model THG

Capacity 250 kg

The THG hand clamp is suited for the individual transport of light and thin plates. Pressing down on the hand grip releases the tension spring, allowing the clamp to open and slide onto the plate.

The plate can be transported by holding onto the ergonomically designed hand grip.

The positive spring pressure prevents the plate from accidental slipping out of the clamp.

The plate surface of the material must not exceed a hardness of HRC 30.

Technical data model THG

Model	EAN-No. 4025092*	Capacity kg	Jaw capacity mm	Weight kg
